Southeast Regional Heart and Vascular Symposium
Saturday, February 27, 2016
The Chattanoogan
1201 Broad Street
Chattanooga, TN
James de Lemos, M.D., F.A.C.C., is a Professor of Internal Medicine in the Division of Cardiology at UT Southwestern Medical Center. He also is Cardiology Service Chief at Parkland Memorial Hospital and Associate Director of UT Southwestern’s Cardiovascular Fellowship Program.

He has served on multiple committees of the American Heart Association and American College of Cardiology and is on the editorial board of Circulation, the Journal of the American College of Cardiology, the American Journal of Cardiology, and the American Journal of Medicine. He has mentored more than 25 post-doctoral research trainees and has authored or coauthored more than 300 manuscripts or book chapters.

He has won several teaching awards and consistently appears on the D Magazine “Best Doctors” and Texas Monthly “Super Doctors” lists.

Dr. de Lemos is active in clinical research, focusing on large-scale human studies and clinical trials. He was the lead author of the Z phase of the A-to-Z Trial, an international trial investigating different cholesterol-lowering strategies in patients with acute coronary syndromes. He is currently Medical Director of the Dallas Heart Study, a multiethnic population-based study of more than 6,000 adults from Dallas County. He also serves as the Research and Publications Director for the NCDR-ACTION Registry, the nation’s premier quality improvement initiative for patients with heart attacks.

Dr. de Lemos is married with three children and is an avid sports fan.
