- ❖ Low-dose CT lung cancer scan has shown to improve survival by 20 percent according to The National Lung Screening Trial (NLST) by the National Cancer Institute (NCI). If someone believes s/he is at risk of having lung cancer, don't wait, talk with your doctor about ordering a lung cancer screening.

- ❖ Private insurance companies cover lung cancer screening for high-risk individuals. Medicare and Medicaid also cover lung cancer screening. If you are age 50 or greater with a history of smoking, or a family history of cancer, or exposure to cancer causing agents (asbestos, diesel fumes, radon, coal smoke, or soot), call (423) 495-LUNG (5864).

About CHI Memorial

CHI Memorial is a not-for-profit, faith-based healthcare organization dedicated to the healing ministry of the Church. Founded by the Sisters of Charity of Nazareth and strengthened as part of Catholic Health Initiatives, it offers a continuum of care including preventative, primary and acute hospital care, as well as cancer and cardiac care, orthopedic and rehabilitation services. CHI Memorial is a regional referral center of choice with 3,500 associates and more than 600 affiliated physicians providing health care throughout Southeast Tennessee, North Georgia and Northwest Alabama.
